

WEST VIRGINIA
FOOT & ANKLE
MEDICAL AND SURGICAL TREATMENT OF THE LOWER EXTREMITY

Medical Grade and Physician Only Products and Formulas

POWERSTEP MEDICAL GRADE FOOT ORTHOTICS, designed to provide substantial support and comfort that is superior to any OTC (over the counter) shoe inserts or gel cushions. Your provider will recommend the style to best accommodate your foot condition and activity level. Simply replace the liner of any shoe with this durable, comfortable and ever so supportive insert and feel the difference that science makes. **Price: \$75**

KERA-42 cream is a highly concentrated urea-based formula (42%) that works incredibly well to break down thick and painful calluses. It should be applied daily to the affected area (most often on the heels). Prescription urea-based topicals are available with extremely high copays and or no insurance coverage. Kera 42 like many of our Medical Grade and Physician only products come with a money back guarantee. **Price: \$30**

KERA NAIL GEL 47% is an extremely effective formula created to penetrate and soften even the thickest of toenails and calluses. Your physician may choose to treat with this product alone or in combination with an anti-fungal solution depending on your condition. **Price: \$30**

TOLCYLEN SOLUTION is a Tolnaftate (anti-fungal medication) based oil which penetrates into the nail and nail bed (it is important to apply the solution to the base of the nail as this is where the infection begins). Unlike other topicals, Clarus contains antioxidants that brighten and whiten the nail as it grows out. It should be applied twice daily, recommended morning and night. **Price: \$60**

SPECIALTY GEL PRODUCTS (including bunion guards with and without toe spreaders, metatarsal pads, crest pads, cushioned heel sleeves and toe caps) provide relief from pain and irritation caused by many common conditions and deformities such as Bunions, hammertoes, Morton's neuroma, metatarsalgia, and capsulitis. Because they are washable and re-usable, each gel can be used over and over again and are available in different sizes to ensure a comfortable fit that won't become too tight like non-gel products. Prices range from: **\$3-\$20**
